ROOTS and FRUITS

The Blakemore family in Lancaster County, Virginia, came apparently from the County Devon area of England. Some think that the family came from near Birmingham, England. It appears that members of the family were residents of the English Counties of Essex, Devon, Carmarthen, Kent, Monmouth and London. They were mostly landed gentry and yeomen. There is no present positive information as to the exact location of the birth place of the emigrant to Lancaster County, Virginia. Major Maurice Neville Blakemore wrote that the Blakemore family came particularly from Parracombe and Ottery St. Mary, County Devon, England.

The name has been spelled in numerous ways, as Blachemer, Blachemor, Blachemore, Blackamar, Blackamor, Blackamore, Blackemar, Blackemer, Blackemoor, Blackemor, Blackemore, Blackmar, Blackmer, Blackmor, Blackmore, Blacmore, Blakemor, Blakmore and Blakemore. Court records show quite different spelling of the surname of the same person. Usually the record shows the spelling was that of the scrivener rather than of the person himself. Records of Washington County, Virginia, show Captain John Blakemore to have written his name with that spelling, although in court records his name was spelled most often as Blackmore. The spelling of the surname of Blakemore is hereinafter used.

The Media publication of family data showed the Blakemores of America to be a strong, active and vital race, possessed of keen mental ability, ingenuity, of resolute will and tenacity of purpose. The same authority stated that the Coat of Arms of the family of Blakemore, Blackmore, Blackmer, Blackmar, is as follows, taken from Burke, General Armory, 1884: ARMS --- "Or, on a fesse between three Moors' heads in profile coupé sable as many crescents argent". CREST --- "A Moor's head in profile erased at the neck sable, gorged or".

The records obtained indicate that the members of the Blakemore family have been largely farmers, business and professional men. Also that there have been but few who amassed outstanding fortunes, and an unusually small number that failed to make a reasonable living.

This compilation of the family history is based on data which was obtained directly from members of the family who were visited or obtained by correspondence. Considerable time was spent at Nashville, Tennessee, and in the Gallatin, Tennessee area, where old records were examined and pertinent data copied. Major Maurice Neville Blakemore, Hon. Thomas Lester Blakemore, Miss Kitty Gill Smith, Mrs. Charlotte Jane Blakemore Hodges, Hon. Forrester Brewster, Mrs. Katherine Powell Purdy, Mrs. Virginia Irene Blakemore Stewart and many others contributed by furnishing data. The records of Mrs. Bessie Ann Blakemore Brewster and Mrs. Ora Charlotte Blakemore Powell were of great value. In the biographical section

there is an effort made to credit each individual that contributed data. Usually the data was hand written and found sometimes to have been quite difficult to read. If errors are found, they may possibly be because of inability to read the data accurately. The records of Lancaster, Augusta, Washington, and Lee Counties, Virginia, have been examined as much as time would permit and references are frequently made to all records found and to various publications considered.

It is felt that but a small number of the descendants of Edward Blakemore, Jr. of Lancaster County, Virginia, are listed. It may be that some one or more members of the family can, in the future, tie in the presently unknown members of the family and that what is listed in this family history may be of some value to those future historians.

This family history has a CHART showing all the known family members and their consorts listed in numerical order, an alphabetically arranged biographical section of all those listed in the CHART, and an index of the maiden names of all married females listed in the CHART with all names mentioned in the biographical section.

A short part of the CHART is here placed for illustration:

The CHART is arranged in order of primogeniture. That is the oldest known member of the family and his descendants in order of birth. The first six Blakemore names, CHART numbers 1 through 4-1 are taken from a Media paper and apparently they were in England. It is not now known whether any one except Edward Blakemore, Jr. 4 came to America. The Media data showed dates that corresponded to the date of said Edward Blakemore, Jr. 4 and it appears likely that the data is correct. No effort has been made to confirm that listing.

The data of the descendants of said Edward Blakemore, Jr. 4 have been checked as carefully as possible and those known are believed to be listed correctly. At the left side of the CHART is a progressive series of numbers which have been assigned to the various members of the family listed. Just to the right of these numbers are Roman numerals which designate the generation removed from the oldest known common ancestor. To the right of the Roman numerals are Arabic numbers which designate the order of birth in that particular family. Each separate marriage is taken as forming a separate family. Each separate family is indented with the number, generation and order of birth followed by the name of a member of the family with consort. Following are listed the given names of the children or issue of that family so far as known in order of birth. All names on the left side of the CHART are of direct descent from the common ancestor. Children or issue are listed solely by their given names on the left hand side of the CHART. Following each descendant's name is listed the consort or consorts, preceded by letters a, b and c. Those letters indicate first, second and third marriages.

Thus comparing the CHART it is shown that Edward Blakemore married Frances Eames and is listed as 1, being the oldest known member of the family, of the first generation with the Roman numeral I and so far as known the oldest member of his immediate family with the Arabic number 1. He had four children, John, Frances, Edward, Jr., and Thomas, who are assigned numbers 2, 3, 4, and 4-1. This last number is so listed because when the CHART was made only three members of his family were then known and it was later found that his son, Thomas, belonged in that position. The oldest child, John 2, married Margaret Manning 2a, and thus began a new family. He and his consort are next listed to show the position that family would take because he was the oldest child. No further data is known as to that particular family. In order to show a stop or break in the chain of tracing the listing of that particular family is followed by three stars. Frances Blakemore 3 being the next oldest is not further listed because there is no information whether or not she married. The next oldest is Edward Blakemore, Jr. 4 who married Hannah \_\_\_\_\_ 4a, and had seven known children. The records of Lancaster County, Virginia, listed his wife's first name but not her full maiden name, therefore a line of eight spaces follows the given name to show that her last name is not presently known. The seven children are listed in the presumed order of their birth. Where birth dates were given, they were checked to establish the order of listing. Where no birth dates are known, the children are listed in the order of data furnished or found. Then taking the next oldest child, the same procedure is followed until no further data was available. Then another three stars and back to the next oldest child and so forth until all known direct descendants are listed.

The biographical data following the CHART is in alphabetical order by surnames and given names. Each name is capitalized to clearly show the person and immediately following is the known pertinent data as to that individual in chronological order. The parents are listed where known, date and place of birth, schools attended, date and place of marriage and to whom, issue (children), work performed, membership of organizations, honors obtained, military service and other data that might be of interest, date and place of death and burial. This method causes some duplication of printing but places all known pertinent data in the biographical sketch of the individual. Unfortunately, there are many listed that have but little personal data caused largely by lack of information furnished or difference of places of abode and lack of time in which to make search for more detailed data.

In the biographical section following each name is a number which refers to the numbers in the CHART. For instance, Guy Clayton Blakemore 882. Referring to the CHART it is seen that he is in the eighth generation, is the second

child of his parents, and that he married Anna Ruth Quillen 882a. He is a son of Ellery Clayton Blakemore 844 and Edna Lorena Minton Blakemore 844a. Again referring to the CHART at number 844, it is seen that his grand father was James Jerome Blakemore 839, who married Amanda Elizabeth Bowling 839a. His great grandfather was Asbury Blakemore 737, who married Mary Farley 737a. His great great grandfather was John Thomas Blakemore 722, who married Frances Olive Poteet 722a. His great great great grandfather was Joseph Blakemore 9, who married Anne \_\_\_\_\_ 9a. His great great great great grandfather was Edward Blakemore, Jr. 4, who married Hannah \_\_\_\_\_ 4a. One more generation back is Edward Blakemore 1, who married Frances Eames 1a.

To determine the degree of relationship, take the name of Charles Alan Grover 661. He is of the ninth generation and a son of Lucille Overton Grover 659 and Harry Alan Grover 659a. Place the names of the direct ancestors of Guy Clayton Blakemore and Charles Alan Grover in parallel lines so that the generations are on the same line:

Edward Blakemore, Jr.	II	
Joseph Blakemore	III	John Blakemore
John Thomas Blakemore	IV	Thomas Blakemore
Asbury Blakemore	V	Lee Cage Blakemore
James Jerome Blakemore	VI	James Essex (Exam) Blakemore
Ellery Clayton Blakemore	VII	Anna Elizabeth Blakemore Overton
Guy Clayton Blakemore	VIII	<del>Charles Alan Grover</del>
	IX	Lucille Overton Grover
		Charles

Thus it is seen that the common ancestor is Edward Blakemore, Jr. 4 of the second generation. Those in the third generation are brothers. Those in the fourth generation are first cousins. Those in the fifth generation are second cousins. The sixth generation; third cousins. The seventh generation; fourth cousins. The eighth generation; fifth cousins. Since Charles Alan Grover is in the ninth generation, he would be a fifth cousin once removed to Guy Clayton Blakemore, or a sixth cousin to the children of Guy Clayton Blakemore.

By referring to the CHART, the Blakemore ancestry of anyone listed in the biographical section should be traced back ten generations in about five minutes. The degree of relationship of any two persons of Blakemore descent found in the biographical section should be determined in about ten minutes.

Sometimes it is known that a Sarah Blakemore was in the family connection, but her married name was not known. By referring to the index for maiden names and others, it is found that Sarah Blakemore had following her name the numbers 64 and 838. Thus there were two Sarah Blakemores. The first by reference to the CHART was a daughter of William Blakemore

IX

Lucille Overton Grover  
Charles Alan Grover

59 and Lonzie Chowning Blakemore 59a and married first Henry Briscoe 64a and second Thomas Oldham 64b. The second Sarah Blakemore 838 was a daughter of Asbury Blakemore 737 and Mary Farley Blakemore 737a and married \_\_\_\_\_ Lanningham 838a.

Some of the family have requested information as to how they could list their ancestry for membership in some society that required such data. The same method as used to determine relationship shows the names of the ancestors and their consorts. When all those names are listed then by referring to the biographical section all the presently known data as to them can be obtained. In the biographical section all married females are listed alphabetically under their last married surnames. For instance, Hannah Blakemore 6 married first Thomas Flint 6a and second William Biscoe 6b. She is found in the biographical section under the name of BISCOE, HANNAH BLAKEMORE FLINT 6. In order to very clearly show the chart number, that number is placed four spaces after the name.

Quite often there are numerous numbers of family members between the listing of the names of one child and that of the next following child in order to keep correct the order of primogeniture. For instance, Capt. John Blakemore 8 is followed by his brother Joseph Blakemore 9. By looking in the biographical section, it is found that the oldest child of Capt. John Blakemore was John Blakemore, Jr. and that Capt. John Blakemore 8 had a daughter, name not known, by his second wife. John Blakemore, Jr. has the number 99 and by looking in the index of maiden names the daughter by the second wife of Capt. John Blakemore 8 is listed under the number 107 and married John Norris 107a. Thus it is found that the children of Capt. John Blakemore are nine and have numbers from 99 through 107. Their descendants are next immediately listed. Next in the biographical section it is found that Joseph Blakemore 9 had a second child named Molly. By looking in the index of maiden names it is found that her number is 717. By reference to the CHART at number 717 it is found that the descendants of Joseph Blakemore 9 begin with a daughter whose given name is unknown and whose number is 716. Thus, the various known descendants of Capt. John Blakemore 8 are to be found in the CHART beginning with the number 99 and ending with the number 715.

In the CHART and in the biographical section the names of those descendants of Blakemore blood are always mentioned first, whether male or female. That is done to keep the blood lines correct. Where cousins marry the number of the individual is listed after the name in the CHART. For illustration, see William Clarence Chowning 69, who married Mary Elizabeth Blakemore 87.

Where additional information shows the descendants of any marriage listed or of some listed individual whose consort is not now known, those names can be added to the CHART by hyphenated numbers. In the make up of the CHART at first it was not known that Edna Lee Blakemore 781 had married. After the CHART had been completed, some additional information showed that she had married first Henry Dillon 781a and had issue. At the proper place for that new family the descendants of that marriage are listed under the numbers 781-1 to 781-19. A similar instance is covered by the number 4-1.

There was found quite a number of members of the Blakemore family, but with insufficient data to tie them as direct descendants of Edward Blakemore, Jr. 4. Some of them were from Maryland and their given names had much similarity to the known descendants herein listed. Also quite a number living in Tennessee that may have been descended from Edward Blakemore, Jr. 4.

There have been found records of numerous descendants of Major George Dawson Blakemore of Sumner County, Tennessee. No positive proof has been found to tie Major George Dawson Blakemore as a descendant of Edward Blakemore, Jr. 4. There is some data that shows he may have been of the Maryland Blakemore family. In "Historical Sumner County" Mr. Cisco stated that Major George Dawson Blakemore had military service in the Revolutionary War and cited authority therefor. Major Maurice Neville Blakemore 35 wrote that the Revolutionary War Record of Capt. George Blakemore 13 was the same record cited by Cisco for Major George Dawson Blakemore, and that Cisco was in error in that respect. Examination of records in the Tennessee Archives confirmed the report of Major Maurice Neville Blakemore 35.

Those herein listed are verily believed to be direct descendants of Edward Blakemore 4, and no others are included.

The members of the family who contributed much detailed data for this history are Ellery Clayton Blakemore 844, John Irvin Blakemore 52, Major Maurice Neville Blakemore 35 and Virginia Irene Blakemore Stewart 83. Where some data they furnished is in the biographical section, their initials are placed to show that they furnished a part or all the data there placed. Mr. James W. Phillips, Farmersville, Texas, kindly contributed data and where his contribution is found, his surname is listed to show that fact.

The following abbreviations are used: d stands for daughter of; m for married; s for son of; DB for Deed Book; G for Grant Book; AF&AM for Ancient Free and Accepted Mason; AB for Bachelor of Arts; BE for Bachelor of Engineering; BS for Bachelor of Science; CSA for Confederate States Army;

Archives for Archives of the State of Tennessee, Nashville, Tenn.; VR for Virginia Record of Revolutionary War Soldiers; and WD for United States War Department record of Revolutionary Soldiers.

Where some reference to a member of the family was found in some publication the following abbreviations were placed in the biographical section to refer the reader to the publications for further informations. Those abbreviations are as follows: Ack for TENNESSEE RECORDS by Jeanette Tillotson Acklen; Addington for HISTORY OF SCOTT COUNTY, VIRGINIA by ~~Luther~~ <sup>Robert M.</sup> F. Addington; Carr for EARLY TIMES IN MIDDLE TENNESSEE by John Carr; Chalkley for ABSTRACTS FROM THE RECORDS OF AUGUSTA COUNTY, VIRGINIA by Judge Lyman Chalkley; Cis for HISTORIC SUMNER COUNTY, TENNESSEE by Jay Guy Cisco; Draper Papers for THE LYMAN DRAPER COLLECTION OF PAPERS, Wisconsin Historical Society, Madison, Wisconsin; Haywood for CIVIL AND POLITICAL HISTORY OF TENNESSEE by John Haywood; Howe for LISTEN TO THE MOCKING BIRD by Lieut. G. Thwaites and L. P. Kellogg.

The preparation of this family history has been a pleasure. The time involved seemed endless and had it been known how much effort had to be expended, it is doubtful that the preparation of this family history would have been undertaken. Having completed the compilation, it now furnishes a feeling of gratitude to those who so kindly furnished data.

been a question as to whether

the witness above mentioned was the son of Edward Blakemore, Jr. or of Joseph Blakemore, and a grandson of Edward Blakemore, Jr. The date indicates that the grandson would have been too young to have been a witness to a will.

BLAKEMORE, CAPTAIN JOHN 8  
s. Edward Blakemore, Jr. and Hannah \_\_\_\_\_ Blakemore. Born about 1723 in Lancaster County, Va. There is a family tradition that he married first \_\_\_\_\_ Guest, but that is an error as his nephew, John Blakemore, s. Capt. Thomas Blakemore and Ann Neville Blakemore married \_\_\_\_\_ Guest. No present data shows the name of his first wife. Issue: John, Jr., a daughter, George, William, Thomas, Milly, Elizabeth and a daughter. m. second 15 Oct. 1768 in Amherst County, Va. Lucy Morgan Carter, widow (Relict) of Charles Carter. Issue: a daughter. The marriage license being issued on the consent of said Lucy Carter and with Job Carter as surety. MR 1763-1800. James W. Phillips wrote that, "Thomas W. Carter wrote that Capt. John Blakemore was a brother in law of William and Ira Nash, whom he visited before he moved to Tennessee. Letter to Lyman Draper. The Nashes lived at the present site of Blountville, Tenn. William Nash had land granted him in the Rye Cove area. SA. This statement is confused as William Nash and Ira Nash were not brothers, but father and son. The settlement of William Nash's mother's estate indicates no daughter with the married name of Blakemore, and since this was in the 1770's, this almost conclusively indicates that they were brothers in law through their wives. William Nash's wife can be proven to be a Mary Morgan and Henry Bradford was her child by her first marriage. This Henry

Bradford was the second husband of Elizabeth Payne Blakemore and one of the executors of Capt. John Blakemore's will. This comes from two articles in Tyler's Magazine by Martha Hidew. The will of John Carter was witnessed by William Nash, his son William Nash, Jr. and his daughter Elizabeth Nash Parry. The will was evidently made just before John Carter moved to Smith County, Tenn. Since John Carter went to Sullivan County, Tenn. to make his will, this looks as if he were related to the Nashes." Mr. Phillips thought that there was issue by the second marriage. It is thought he married first about 1750. He moved from Lancaster County, Va. to Hamilton Parish, King William County and later to the Catawba area of Augusta County, Va. On 15 July, 1767 he with Frederick Stern and Edmond O'Neal appraised the estate of James Carty, with Samuel Pepper acting as administrator. Augusta County, Va. WB 4-125. Chalkley III 104. On 16 Aug. 1769 he with Samuel Pepper and Joseph How (Howe) were appointed to appraise the estate of Col. John Buchanan, deceased, for his property lying in the New River area. OB 13-322. Chalkley I 158. On 14 Oct. 1769 he, with Joseph Howe and Samuel Pepper filed an appraisal of a part of the estate of Col. John Buchanan, Gent., deceased. WB 4-389. Chalkley III 118. Addington on page 43 of his History of Scott County, Va. refers to Judge M. B. Wood in the Draper MSS as stating that about 1770 David Cox had been with Daniel Boone from Yadkin, N. C. to near Elizabethton, Tenn., where he left Boone and went north through Big Moccasin Gap to the mouth of Stoney Creek, where he

was captured by Indians and held from two to four years. He escaped and returned to N. C. and induced a few families to accompany him to good land at the mouth of Stoney Creek on Clinch River. So, on 1774 the Blackmores and two other families left Yadkin River and settled on the Clinch at the mouth of Stoney Creek. Draper MSS 4C27. (This last is an apparent error as it is the only reference found that shows Capt. John Blakemore to have lived in N. C. He was in the Catawba area just before going to Fort Blackmore, Scott County, Va.) One James Green settled in the neighborhood of Fort Blackmore in 1772. Addington. Capt. John Blackmore (Blakemore) settled in Scott County, Va. at Fort Blackmore in 1770-72. Addington 1. He with John Blackmore, Jr., Joseph Blackmore, John Carter and Andrew Davis settled at Fort Blackmore. Addington 43. "The story of the Porter family is substantially as follows: The first settlement in Scott County, Va. was made by Patrick Porter, Capt. John Montgomery, who was Porter's brother in law, Raleigh Stallard, Hutchenson and Samuel Porter, the oldest son of Patrick Porter. They settled on Clinch River in the Fall after Col. Lewis fought the Five Tribes on the Ohio River. They came from Snoddy's Fort in the Castlewood. Patrick Porter built a fort on what is now the Reuben Banner farm. The Porter tradition further states that the Blackmores came to this section from Fauquier County, Va." Thomas Carter's letters in the Draper MSS. (Col. Lewis fought the Battle of Point Pleasant in the Fall of 1774.) "About 1770-73 he moved from the Catawba area of Botetourt County, Va. and built a fort at the mouth of Stoney Creek, which fort was called Fort Blackmore. The Fort

took its name from Capt. John Blackmore, its most prominent citizen. In fact there is reason to believe that it was his residence until he emigrated to Nashboro, Tenn. in the Spring of 1780. A small fortification." Addington 47. On 16 Dec. 1773 there was an order of the Council of Virginia for a survey of lands on the Clinch River for John Blackmore. "We, the Commissioners for the District of Washington and Montgomery Counties, do certify that John Blackmore is entitled to 400 acres of land lying in Washington County at the mouth of Stoney Creek on the north side of the Clinch, being a part of 518 acres of land surveyed for said John the 25th of March, 1774, by virtue of an order of Council, dated the 18th day of Dec. , 1773. As witness our hands this the 20th day of Aug. 1781. James Cabell, Harry Innes and N. C. Cabell, Commissioners." A plat of 518 acres surveyed for John Blackmore is of record in the Clerk's Office at Montgomery County, Va. in Plat Book "A" page 75. The survey was made by Daniel Smith, Assistant of William Preston, Surveyor, Fincastle County, Va. Addington 45. He got a Fincastle County, Va. survey dated 25 March, 1774 for 510 acres on the north side of Clinch River, on both sides of Stoney Creek. SA 653. On 12 July, 1774 Col. William Christian advised Col. William Preston that a garrison of 30 men was ordered to be at Blackmore's back of Moccasin Gap. Addington 61. On 13 July, 1774 Capt. William Russell wrote Col. William Preston that there were only four families at Fort Blackmore including John, Sr., John, Jr. and Joseph Blackmore and perhaps James Green. Addington 44. On 23 Sept. 1774 Chief Logan, the Mingo, captured two

slaves of Capt. John Blackmore and was after the third when Capt. John Blackmore prevented the capture. Logan marched the two slaves in full view of the Fort for near a quarter of an hour. There were only eleven men at the Fort and they could not attack the Indians. Addington 34, 35. Capt. William Russell wrote to Col. William Preston that a captive negro of Blackmore's was then on horse to return. Thwaites Dunmore 309. Addington 34. On 6 Oct. 1774 when the Indians approached Fort Blackmore, Dale Carter saw them and called, "Murder, murder!" The Indians shot him through the thigh and then killed him with a tomahawk and scalped him. Addington 58. Pendleton 301. In June, 1776 two men were killed by Indians at Fort Blackmore. A son of Jonathan Jennings and one of his slaves were killed by Indians at Fort Blackmore. Addington 78. On 3 Sept. 1776 he with Samuel Porter, Henry Dickerson and John Kincaid were appointed by the Fincastle County Court to appraise the estate of William Herbert, lying on the waters of Clinch River. SA 651. On 29 Jan. 1777 he with Andrew Davis, Ralley (Raleigh) Duncan, Thomas Nicholas and Benjamin Nicholas were ordered by the Washington County Court to appraise the estate of Alexander McKee, deceased. SA 953. On 29 April, 1777 he with George Pain (Payne), Samuel Riche (Ritchie), John Blackmore, Jr. and Andrew Davis were ordered to appraise the estate of James Naul, Deceased, and the estate of Samuel Crabtree, deceased. OB 1-8. SA 959. In the Spring of 1777 the Indian Chief, Bengé, and a party of Indians approached Fort Blackmore. There was an Indian in a tree on the bluff on the south side of the Clinch River who was calling like a wild turkey.

Matthew Gray went around the Indians and shot that one in the tree and outran the other Indians to get back into the Fort. Addington 83, 85. On 30 Sept. 1777 he with Andrew Davis and Alexander Riche (Ritchie) were ordered to appraise the estate of John Douglass, deceased. SA 971. On 20 March, 1778 Thomas Carter was ordered to be overseer of the road from Blackmore's Fort to the Ford of Clinch and that John Snoddy, Gent. furnish him with a list of tithables. SA 984. On 18 Aug. 1779 he served as a jurymen in the case of Nicholas Brabstone v. James Herris (Harris), and in the case of James McGavock v. Edward Bond. SA 1043. On 19 Aug. 1778 he with Col. Arthur Campbell, Capt. Anthony Bledsoe, Capt. Daniel Smith and Joseph Black were appointed examiners of the Bills of Credit of this (State) or the United States agreeable to an Act of Assembly for more effectually guarding against counterfeiting of the Bills of Credit, Treasury Notes and Loan Office Certificates. SA 1045. In Dec. 1779, he, as leader, and his family left Fort Blackmore on Flat boats, going down Clinch River for Nashboro. His son John Blakemore, Jr. was with him. They joined Col. John Donelson about the mouth of Clinch River into the Tenn. River and then went down the Tenn. River, up the Ohio River and the Cumberland River getting to Nashville, Tenn. in the early Spring of 1780. With them was a young man named Payne and a slave of Jonathan Jennings who were both killed by Indians. Haywood 219. Addington 88, 89. Capt. John Donelson made an entry in his log of the trip, "Sunday 5 March, 1780 at midnight we came up with the Clinch River Company. X X X We regret the death of young Mr.

Payne on board Capt. Blackmore's boat who was mortally wounded by enemy. The Jennings boat (was) shot at and a son and slave out." Both Jonathan Jennings and Capt. John Blackmore are mentioned as having been given land for distinguished services against the Indians. Haywood 219. Their descendants still reside in Middle Tennessee. Addington 88, 89. He was a witness to the will of Susanna Carter, which will was probated in Washington County, Va. on 15 Jan. 1781. His name as said witness was signed "John Blakemore". Susanna Carter devised to her brother Charles Carter. WB 1-53. On 13 May, 1780 he signed the Nashboro Compact. The Tennessee list of the Donelson Group has the name of Capt. John Blackmore and again as John Blakemore, Sr. Tenn. Archives. He was a soldier in the Revolutionary War. 9th Va. State Library Report 1911-12 at page 33. On 20 Aug. 1781 he got a Washington County, Va. survey for 400 acres at the mouth of Stoney Creek and on 21 Aug. 1781 a survey for 400 acres on the south side of Clinch River, being settled in 1773. SA 1197. On 21 March, 1782 he was recommended by the County Court of Washington County, Va. as a fit person to be appointed to the Commission of the Peace. SA 1098. On 17 April, 1782 he was again recommended as a fit person to be appointed to the Commission of the Peace. SA 1100. On 20 May, 1782 Joseph Blakemore swore that he saw John Blakemore sign as a witness to the will of Susanna Carter. SA 1146. On 18 June, 1782 he was a bondsman for Elizabeth Blackmore and Josiah Payne as administrators of the estate of John Blackmore, Jr., deceased. He, with Andrew Davis, William Blackmore, Almore (Elmore) Douglass and Josiah Payne were appointed appraisers of the estate of

Matthew Moss, deceased. SA 1103, 1104. There is a reference that he was a soldier in the Battle of Kings Mountain in Oct. 1780. It therefore appears that he returned to Davidson County, Tenn. and settled on Stone's River. On 17 April, 1786 he got a grant No. 61 with Warrant No. 492 of Davidson County, Tenn. for land on the north side of Cumberland River. G 7 page 8. He also got Grant No. 78 for 640 acres at the mouth of Dry Creek, north side of Cumberland River. Also Grant No. 399 for 640 acres on the west side of Drake's Branch.
